Additional charges may be added for patient specific urinalysis testing. You will be notified of all such charges prior to incurring them.

Notes: Counseling is included in the methadone and Suboxone treatment fees. Urine lab test fees as required by the state or federal government are also included in the methadone and Suboxone treatment fees.

Some patients will have their Suboxone prescribed by the physician. The cost for their medication may vary depending on where they purchase it.

Additional fees may be added from time to time. Patients will be informed of any additional fees prior to the clinic imposing these fees. If you have insurance, your insurance company may charge co-pays, require that you pay a co-insurance amount and that you pay a deductible. We must collect these fees from you, up to the designated amount.

I have received a copy of these fees.
